Document: 5. Regulation Wording and Penalties

The following wording can be used to be included in the supplementary regulations or a bulletin, this include the standard penalty structure for a Virtual Chicane:

Virtual Chicane (VC): Competitors must achieve a specified minimum speed limit at some point within a specified length of road of at least 200m. Signs must be used to indicate the start and finish of the VC. Approach warning boards are to be erected at 300m, 200m, and 100m before the VC zone. Minimum speed may be measured by an approved radar speed measuring device. Judge of fact or GPS tracking device in the car. It is the competitor's responsibility to achieve the minimum speed in the event of a supplied GPS tracking device failing to operate correctly. Penalties are:

- (A) Lowest speed in Zone less than 5 km/h over the limit - 30 SECS
- (B) Lowest speed in Zone between 5 and 10 km/h over the limit - 20 SECS
- (C) Lowest speed in Zone more than 10 km/h over the limit - 60 SECS

The penalties stated do not prevent the Stewards from imposing additional penalties if they judge it necessary.
